

**THE MANITOBA CHAPTER
OF
THE NINETY-NINES**

International Organization of Women Pilots

**Airport Accommodation
Scholarships**

The Manitoba Chapter of the Ninety-Nines is pleased to announce the availability of our Airport Accommodation Scholarships to members of MB 99's and or the International 99's. These scholarships provide free accommodation for women coming to the Winnipeg area to complete their training or to fly the MB99's club plane, C- FLUG.

All women enrolled in aviation related training programs are eligible.

The scholarship committee will be assessing all applications received by email by February 1. Late applications may be accepted depending on availability of space. Final selection will be based on criteria such as commitment to completing the proposed training, career goals, commitment to the 99s mission, and involvement with MB 99's or International 99's, and aviation in general. The award will be presented at the Manitoba Aviation Symposium's Award Banquet.

We welcome and encourage all women enrolled in aviation related training programs to submit an application.

Completed forms, or any request for additional information may be directed to:
